

Visualize your project.

Summarize schedules, track baselines and show progress using data from Microsoft Office Project.

Product Overview

OnePager® Pro is a Microsoft Office Project add-in that creates full-color snapshots of project schedules. OnePager Pro goes beyond simple schedule management by allowing users to incorporate informative data like baselines, percent completes, and resource assignments into the one-page project summary.

How it Works

- Select data from Microsoft Project
- Launch OnePager Pro to create a snapshot
- Customize colors, fonts, and layouts
- Share in Microsoft PowerPoint, web, or e-mail

Features

- Import from Microsoft Project
- Export to multiple formats
- Customize timeline appearance
- Show dependencies between tasks
- Attach comments to tasks
- Show percentage complete of a task
- Illustrate project baselines
- Make weekly updates
